

AUTOMATIC GRAIN DRYING & COOLING

The Ultimate in Grain Care

WHY BDC SYSTEMS?

SALES & DESIGN

We offer a full range of post-harvest equipment from world-leading manufacturers. Our sales team covers the entire UK and Ireland, and are highly experienced in designing and specifying systems for new-build and plant extensions on an agricultural and industrial scale.

TECHNICAL SUPPORT

As well as after-sales support, our technical support department has an enviable knowledge of all aspects of grain drying, storage, cleaning and conveying.

SPARES

We keep in stock a wide range of commonly required spare parts and ducting for much of the equipment we supply. This can be dispatched quickly by carrier or on our own transport for local customers. Items not carried as standard stock can be sourced quickly from the original manufacturers.

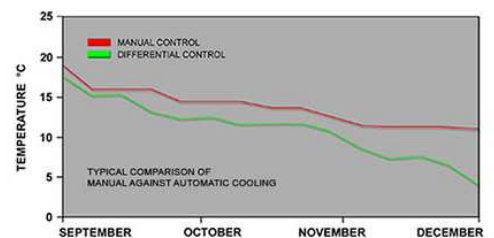

Automatic drying-fan control using accurate RH sensing. System **optimises** aeration for fastest cooling with differential control of fans.

AVC300

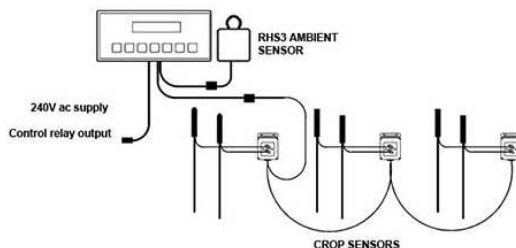

Automatic Ventilation Control

Rapid cooling once the grain is dry will control pest infestation for enhanced quality.
Safe storage life is extended with minimum germination loss
Minimise reliance on pesticides.

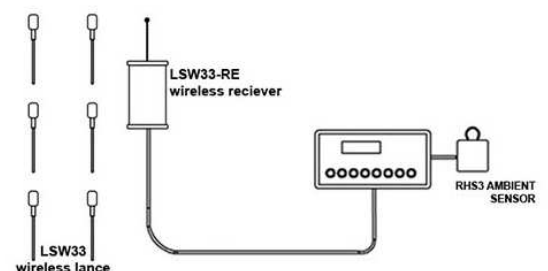

Automatic drying and cooling minimises "hands-on" management.
Time Clock to reduce energy costs using off-peak power.
Check up to 64 sensors to review cooling progress for assured safe storage.
Logged fan run time to check aeration hours

AVC300F FOR ON-FLOOR DRYING WITH TEMPERATURE MONITORING

AVC300C SYSTEM WITH WIRELESS TEMPERATURE PROBES

- ◆ DRYING
- ◆ HANDLING
- ◆ STORAGE
- ◆ VENTILATION
- ◆ CLEANING
